

TREMBLANT FAR INFRARED SAUNA

The Tremblant 2 Person Sauna, a product from Canadian Spa Company, is crafted from Canadian Hemlock wood, known for its durability and hypoallergenic properties as the Hemlock has little to no aroma. Designed with a locking clasp system, our saunas are quick and easy to assemble and plug into a standard (230V) dedicated outlet. They also feature tempered safety glass doors and windows that add a modern look and allow a clear view of your outside surroundings.

Thoughtfully equipped, the Tremblant Sauna features an intuitive digital control panel, built-in Bluetooth audio system, mood-enhancing LED chromotherapy lighting, and an integrated aromatherapy system.

These elements work together to create a calming, immersive experience that soothes the senses and uplifts the spirit.

Powered by eight Far Infrared Mica Heaters, the sauna delivers quick and even heat distribution while remaining energy efficient. Plus, with low EMF emissions and safety-certified components, you can enjoy peace of mind while reaping the full benefits of your infrared sauna sessions.
